**Cashback
Browser**

The Browser

Our browser, intricately built on Google Chromium, is tailored for secure and transparent digital marketing activities. It provides an optimal platform, ensuring utmost security and transparency in our strategic development.

Empowering our advertisers to monitor and analyze every aspect of navigation, our browser facilitates a thorough examination of diverse conversions.

This strategic development has resulted in a robust tool, elevating the efficacy and precision of digital marketing endeavors. Wooeen excels in demonstrating unmatched transparency and security for users and partners, surpassing other online channels.

The search engine

Wooeen's **search engine operates on a dual-layer system.**

The initial layer retrieves results from our extensive database, and in the absence of relevant content, we seamlessly integrate standard Google answers.

With our continuously expanding database, users benefit from more comprehensive answers

Understanding the user's primary objective of achieving cashback, our focus is on delivering responses that streamline their search for brands, products, offers, promotions, coupons, and relevant content, ensuring a pathway to their goal.

Advertisers

Woopen **facilitates the promotion of diverse offers** without conflicting with client goals or disclosure rules.

Everything that happens in Woopen stays in Woopen

This unique capability ensures complete transparency in delivering traffic to the client, providing detailed information from the browser name to the referral origin of the conversion.

Posts and content

Wooeen proudly offers its proprietary content creation tool

Designed to generate content that aligns with current consumer trends, user searches, and advertiser demand

Our objective is to deliver compelling and relevant content to both users and advertisers, seamlessly aligning with the shared interests of both parties.

Offers Feed

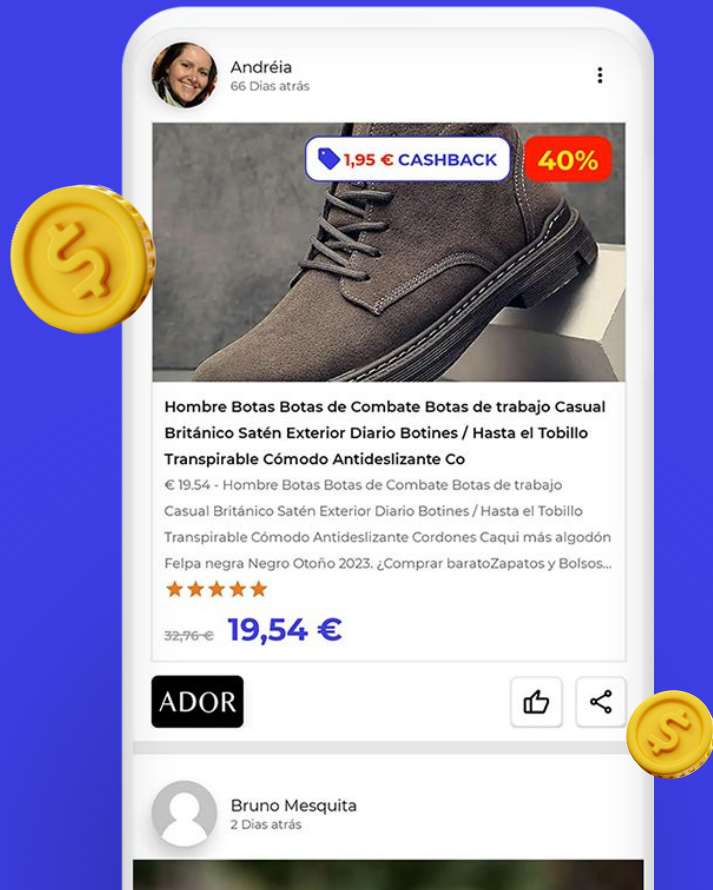

Wooeen's Offers Feed comprises user-shared offers, allowing users to share and earn cashback for their product recommendations.

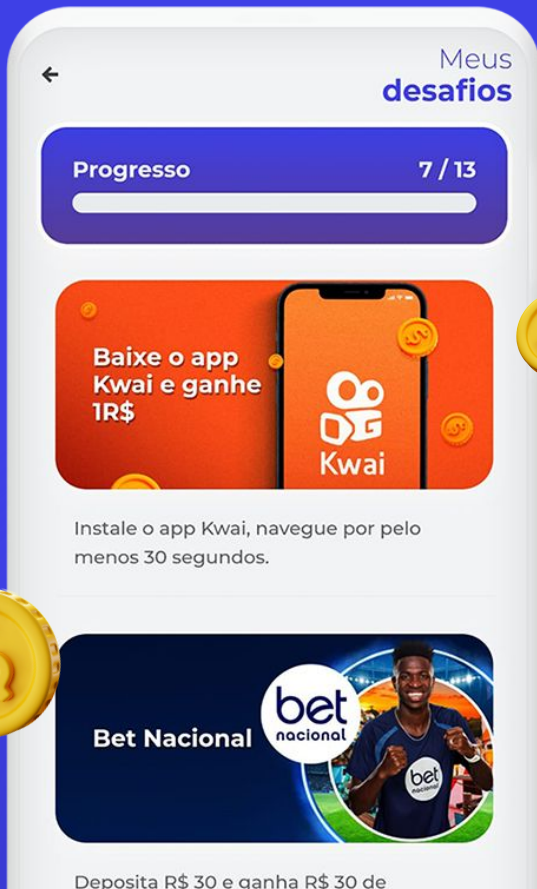

Our objective is to streamline access to genuine offers and captivating deals, facilitating users in finding discounts effortlessly and maximizing their cashback earnings.

Coupons

At Wooeen, we collaborate with top-tier coupons, strategically presenting users with the most relevant coupon at the opportune moment.

Our primary focus is ensuring users can seamlessly utilize valid coupons, prioritizing a hassle-free and gratifying experience.

Tasks

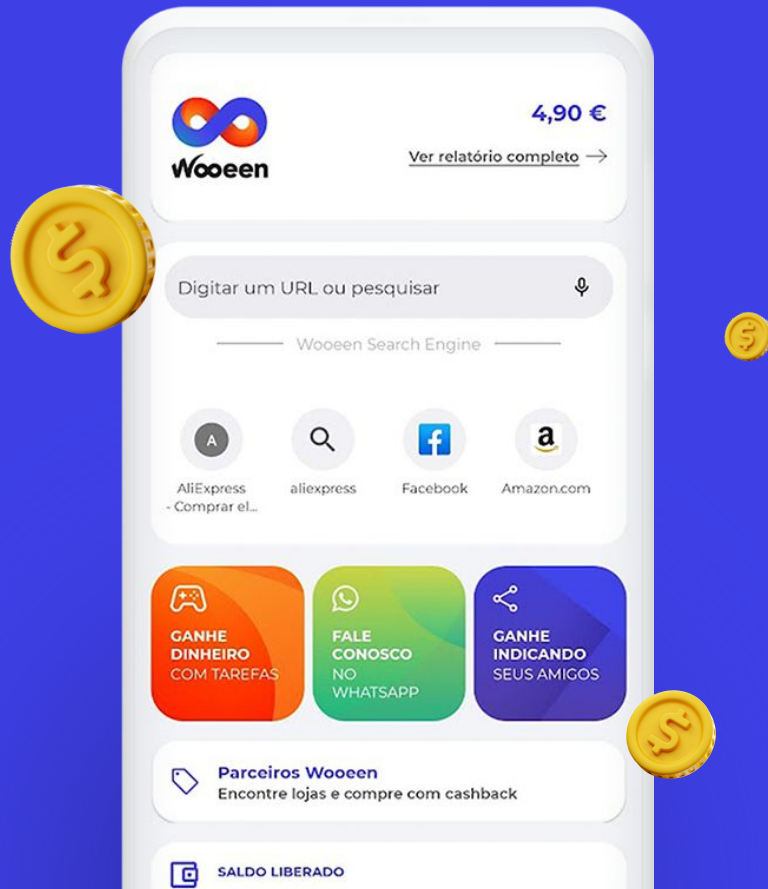

Tasks within Wooeen constitute paid actions by our customers, eliminating the need for direct payment.

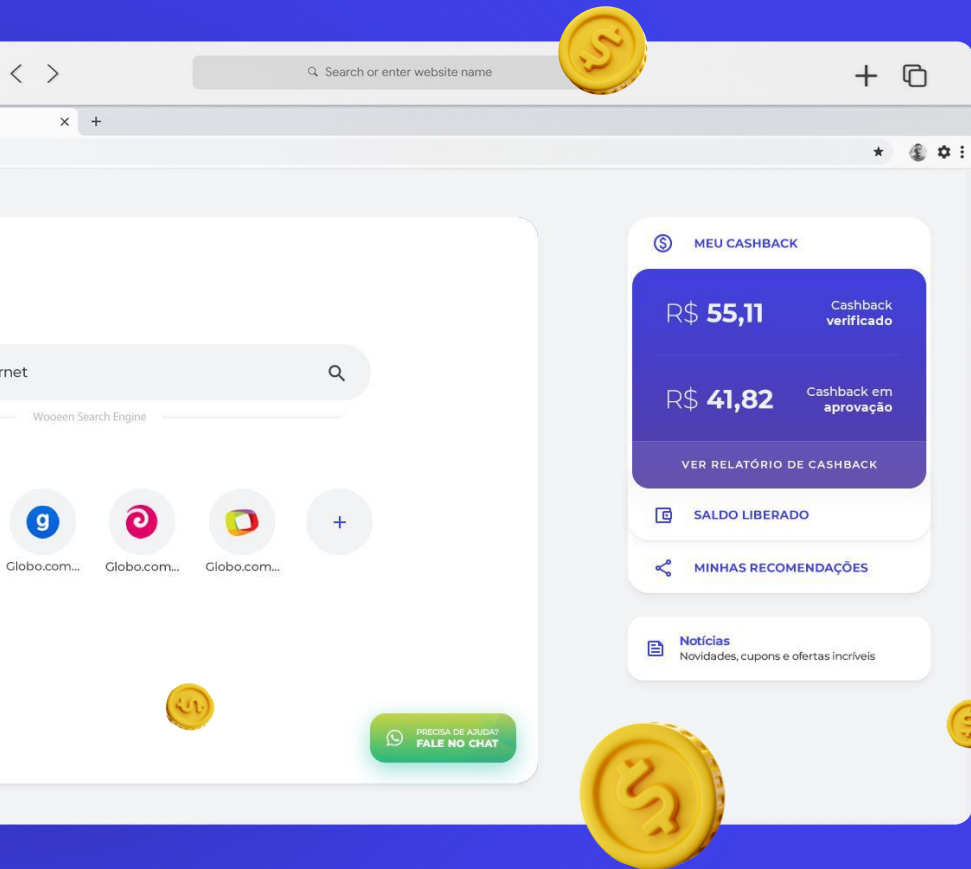

Designed to facilitate users in generating cashback, these actions contribute to delivering quality results for our valued customers.

Wooeen Mobile

Wooeen made its debut on the Android platform with a strategic focus on the mobile audience.

Following a successful launch, prompt adjustments were implemented to enhance user satisfaction, swiftly establishing the Browser as a preferred choice among users.

Wooeen Desktop

Introduced on Windows in April 2022, Wooeen Desktop is a versatile multiplatform channel, providing users the flexibility to utilize their preferred device.

Harnessing the advantages of each platform, Wooeen enhances user interaction and optimally presents offers, contributing to an improved and seamless experience.

Wooeen Tracking

Wooeen, a cashback-centric channel, is committed to meeting user expectations by identifying and rewarding their paid actions.

To fulfill this commitment, we've developed a robust tracking system capable of identifying conversions from virtually any type of action, ensuring users receive their well-deserved cashback.

Why work with Woően Cashback?

Woően stands out as a transparent channel, providing unparalleled security in transaction tracking. We pride ourselves on being the sole channel that delivers a comprehensive browsing experience.

As the exclusive channel capable of justifying your conversions with 100% accuracy, we ensure a meaningful and consistent participation in the entire conversion process, from inception to completion.
